

San Francisco Arts Commission, *San Francisco, California*

In 2012, the San Francisco Arts Commission (SFAC) had undergone a change in leadership at both the staff and Commission levels, and a refreshed vision and new plan were needed to guide the Agency into the future. MMC began working with the SFAC in 2013 to formulate a vision and develop a five-year Strategic Plan. MMC led the planning process, which involved a high degree of community input at every stage, conducting nearly 100 interviews, facilitating a Visioning Workshop, and completing a Benchmark Study comparing the SFAC with local arts agencies from five other major US cities. The resulting plan is the most thorough and comprehensive plan that the SFAC has undertaken in its 80-year history. Links to the SFAC Strategic Plan as well as the Project Schedule, Visioning Workshop Summary, and Benchmark Study, are available on the SFAC website: <http://www.sfartscommission.org/our-role-impact/about-commission/strategic-plan>
