

ARVADA CENTER FOR THE ARTS AND HUMANITIES

Arvada, Colorado

Organizational Assessment and Institutional Planning

MMC was retained by the Arvada Center for the Arts and Humanities—which encompasses a museum, performing arts venue, and educational programs—to conduct an assessment of internal business practices, including how well the Center functions as a department of the City with 510(c)(3) support. MMC made recommendations related to streamlining operations, restructuring budgets, and enhancing the relationship between the Center and its regional community. Upon completion of the assessment, MMC was hired for a second engagement that included the development of a five-year Strategic Plan.
