

## Arvada Center for the Arts and Humanities

---

**Location:** Arvada, Colorado

**Scope of Work:** Management Assessment,  
Strategic Plan

In 2005, MMC worked with the Arvada Center for the Arts and Humanities—which encompasses a museum, performing arts venue, and educational programming—to conduct a Management Assessment of internal business practices, including how well the Center functions as a department of the City with 501(c)(3) support. MMC made recommendations to the organization for streamlining operations, restructuring budgets, coordinating functions of the three divisions (museum, performing arts, and education), and enhancing the relationship of the Center to its regional community. In 2006, MMC returned to Arvada to facilitate a five-year Strategic Plan based on the recommendations presented in the Management Assessment.
