

WHATCOM MUSEUM

Bellingham, WA

Assessment

In 2014, the leadership of the Whatcom Museum was rethinking and refining how it was operating in the changing environment of Bellingham, and retained MMC to conduct a comprehensive assessment of the organization and evaluation of potential governance scenarios and their financial impact. The resulting Organizational Assessment document presents a thorough evaluation of Museum operations and its relationship with the City of Bellingham, including analysis of the Museum's financials, a summary of the key issues facing the Museum, and recommendations for future operations and sustainability.
